PROFESSIONAL SUMMARY

Impact-oriented Software Engineer and current ITI trainee, with a strong academic foundation as a graduate of the Faculty of Computers and Information. Experienced in building scalable, high-performance web applications using React, Next.js, Node.js, and TypeScript. Skilled in improving performance, enhancing SEO, and delivering user-centered solutions aligned with business goals. Familiar with Agile and DevOps practices, RESTful and GraphQL APIs, and committed to continuous learning and innovation.

EDUCATION

Open-Source Professional Training Program — ITI Minya | Oct 2025 – Present

- **E-Commerce Platform (Full-Stack)** ([Node.js](#), [Angular](#)) — Developed a complete e-commerce system with authentication, API integration, and a responsive UI.
- **Job Recruitment Platform (Full-Stack)** ([Laravel](#), [Vue.js](#)) — Contributed to building a job recruitment platform with core features and workflows.
- **Medical Web Application (Full-Stack)** ([Django](#), [React](#)) — Built a healthcare web application with a focus on structured architecture and scalability.

Bachelor's degree in computer science & information systems — Minya University | Jul 2025

GPA: 3.11/4.0 (Grade B)

- Graduation Project: Smart Asthma Management System – Wearable Device & Mobile Application
 - Designed a wearable device integrated with a mobile app to monitor asthma symptoms and predict attacks in real time.
 - Implemented air quality monitoring that alerts patients up to 5 minutes before a potential crisis.
 - Awarded national funding of 500,000 EGP for its innovative approach and potential social impact.

TECHNICAL SKILLS

Front-End: React.js, Next.js, Angular, Vue.js, JavaScript, TypeScript, HTML5, CSS3, WordPress

Back-End: Node.js, Nest.js, Laravel, Django, RESTful APIs, GraphQL

Mobile: Flutter, Dart

Blockchain: Solidity, Ethereum

DevOps & Tools: Git, GitHub, Docker, CI/CD Pipelines, VS Code, Android Studio

Databases & Cloud: Firebase, SQLite, Database Management, SQL, MongoDB

Other: Clean Architecture, SOLID Principles, Design Patterns, Power BI, AI Productivity Tools (Claude, ChatGPT, Notion AI)

WORK EXPERIENCE

CEO and Founder—Tech Mastery for Digital Solutions | Aug 2025– Present

Freelance Web Developer — Shiny Teeth – Dental Clinic Management System | Apr 2026 – Present

- Developed a full-stack web application enabling a dental clinic to manage appointments, patient records, and operational workflows.
- Built a responsive, component-based front end using React.js with seamless back-end API integration.

Freelance Web Developer — [SaaS Enterprise Management System](#) | Apr 2026 – May 2026

- Developed a multi-tenant SaaS platform enabling managers to oversee all operational processes across multiple business units.

Freelance Web Developer — [TG5 Gamer Fuel Shop](#) – E-Commerce Platform | Aug 2025

- Co-developed and deployed a fully functional e-commerce website in collaboration with another developer, focusing on performance and user experience.

Freelance Web Developer — [Tech Mastery](#) | Jul 2025

- Developed and deployed a responsive web application with a focus on modern UI/UX design and interactive features.

Freelance Flutter Developer — [SWIFT](#) – Asthma Prediction App | May 2025

- Developed a smartwatch-integrated mobile application for asthma patients to predict and prevent attacks.
- Ensured accurate health data synchronisation using Firebase.

Freelance Flutter Developer — Gstudent – Educational App | Feb 2025

- Created an educational mobile application to improve teacher–student interaction.
- Integrated features for real-time communication and content sharing.

Freelance Web Developer — ARCADIA – Marketing Website | Nov 2024

- Enhanced a WordPress-based marketing website to improve UI/UX and service presentation.

Freelance Flutter Developer — HealthyVault – Healthcare App | Aug 2024

- Developed a healthcare application connecting patients and doctors using Flutter, Firebase, and SQLite.
- Delivered features for appointment booking, medical records management, and in-app chat.

INTERNSHIP

[Flutter Developer Intern](#) — Athar | Dec 2024 – May 2025

- Collaborated with a development team to build a campus mobile application using Flutter.
- Applied clean architecture principles to ensure maintainable and scalable code.

EXTRACURRICULAR ACTIVITIES & LEADERSHIP

President — Innovation and Entrepreneurship Unit, FCI | Nov 2024 – Jul 2025

Led a team to organise events, hackathons, and workshops focused on innovation; prepared students for national and regional competitions.
